Analogue actuator, 4-gang for KNX

| Specification | Order No. | Packing unit | PS | EAN |
|---------------|-----------|--------------|----|---------------|
| DRA | 1022 00 | 1 | 26 | 4010337010708 |

Features

Analogue actuator, 4-gang DRA with integrated bus coupler converts KNX telegrams (1-byte and 2-byte) into analogue output signals.
These analogue output signals enable heating, air conditioning and ventilation actuators to adapt their initial parameters based on bus

information, and to participate in control processes.

- Voltage outputs with short-circuit protection.

- The initial state is indicated by the status LED.

- The initial parameters can be restrained.

- Switch off outputs not required.

- The four outputs are parameterised to voltage or current signals by the software.
