

Video multiplexer

Specification	Order No.	Packing unit	£/piece without VAT	PS	EAN
	1224 00	1	129.55	10	4010337229124

Features

- The video multiplexer bundles the video signals of door stations, DCS-camera gateways, and DCS-IP gateways.
- A video multiplexer can merge the video signals from three door stations with colour cameras. Using two video multiplexers, the video signals from up to 5 door stations can be merged.

The combination housing makes three mounting types possible

- Surface-mounted (in a standard junction box).
- Flush-mounted (in a device box).
- As a DRA device (using the DRA adapter enclosed).

Technical data

Power supply: DC 26 V \pm 2 V (by 2-wire bus)

Connections

- 2-wire bus IN: 6 x screw terminal
- 2-wire bus OUT: 2 x screw terminal

Ambient temperature: -25 °C to +70 °C

Dimensions

- Video multiplexer: W 36 x H 52 x D 27 mm

Notes

- No further configuration is necessary during commissioning because the video multiplexer automatically adapts to the existing mains supply.

Scope of supply

- A DRA adapter is included.
